** The first high school in Monticello was established in 1892-1893, but a 4-year high school curriculum at Monticello High School was not established until 1911-1912. Graduates before 1912 had only a two-year course of study. Graduation years are generally based on Senior Class photographs from the Mohiscan yearbooks - many of which are available at the Monticello Area Historical society. See the notes below for exceptions.*

This information may be incomplete for the following years: 1895-1904, 1908, and 1911. Information on Monticello High School alumni for these years will be appreciated.
